

A DECLARATION OF SUPPORT FOR A KINDER WORLD

We, the City Council of the City of Solvang, at our meeting of May 29, 2018, unanimously declared our support of international collaboration of our nation's governments and its citizens to create kinder and peaceful societies for our children to ultimately inherit. We pledge our ongoing support to the ambitious efforts of World Kindness USA to encourage all of humanity, from our classrooms to our staffrooms and from our board rooms to those residing in the corridors of government, to seek the kinder option in all matters. Rather than be daunted by the challenges ahead, the unshakeable belief to see a kinder world realized in our lifetime will inspire all nations to connect in the spirit of goodwill through finding the Courage to be Kind.
